Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

1. Devon Energy has contracted Talon/LPE to do reclamation activities at Acme 15 Federal No. 2, a plugged well location.

2. On 10/12/2012 Talon/LPE mobilized personnel to the site to carry out soil sampling activities for the construction of a work plan. Grab soil samples were collected from the surface of the location. The soil samples were sent to Cardinal Laboratories for analysis of total Chlorides via Method SM4500Cl-B. The results for the soil samples are attached. A site plan is also attached.

3. The surface of the closed drilling pit area will be bladed to prepare for the installation of a liner. Rock and debris will be deep buried into the closed drilling pit area. A composite 20 millimeter liner two hundred (200') feet long by one hundred twenty (120') feet wide will be installed over the closed drilling pit area. The edges of the liner will be keyed a minimum of 3-feet deep into a trench excavated at the boundaries of the closed drilling pit area.

4. Soil will be transported in from a local borrow pit. A minimum of 2-foot of new soil will be placed over the top of the 20 mil liner in closed drilling pit area. The soil lift will be contoured to match the surrounding terrain.

5. The caliche from the lease road and location will be removed. It will be deep buried under location or used to repair lease roads in the area.

6. The location will be ripped, cross-ripped and windrows will be installed over the drilling pit area and location. The lease road, drilling pit and location will be seeded using the recommended BLM seed mixture for the area.

8. A road closure berm will be installed to prevent access to lease road or location.
