If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

During the process of drilling, a gas tie in point and meter were planned to be placed on the SW corner of location just East of the access road. For this reason the tank battery facility was located on the South side and a temporary flare line on the West side of location.

Therefore, the IR will be changed to the following: Reclaim most of the East and North side of location. Please see attached diagram.
