NATURE OF RELEASE

Type of Release	Oil	Volume of Release	18bbbls	Volume Recovered	0bbbls
Source of Release	Oil hauler tank ran over	Date and Hour of Occurrence	03-01-2013	Date and Hour of Discovery	03-01-2013 10:00am
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			
If a Watercourse was Impacted, Describe Fully.*					
Describe Cause of Problem and Remedial Action Taken.*					
Oil hauler driver was not paying attention while he was loading the trailer. Keep watch when loading trailer.					
Describe Area Affected and Cleanup Action Taken.*					
Initially 18bbbls of oil were released from an oil hauler and we were unable to recover any oil. The release was completely contained on the location. The location has been scraped. Tetra Tech will sample the spill site area to delineate any possible contamination from the release and we will present a work plan to the NMOCD for approval prior to any significant remediation work.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
