Closed Loop System

Skeen 2 26 27 ST 3H Unit B, Sec. 2, T-26-S R-27-E Eddy, Co., NM API# 30-015-41117

Plans are to use a closed loop system with haul-off bins (steel pits) for this well. Operator will maintain all liquids and solids within the closed loop system in a safe manner in order to protect public health and the environment.

Operations and Maintenance:

The rig's crew will inspect and monitor the drilling fluids contained within the tank and monitor any spill which may occur. Should a spill, release or leak occur; the NMOCD District II office in Artesia (575.748.1283) will be notified. Please note that notifications may be made earlier to the district office should a greater release occur in compliance with NMOCD's rules.

Closure:

During and after the drilling, all fluids and drill cuttings will be transported to Controlled Recovery, Inc. Permit # NM-01-0006.

The alternative disposal facility will be at Sundance Disposal. Permit # NM-01-0003.
