	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, L.P. respectfully requeste to make changes to the approved liner. Due to mechanical difficulty on a previous well, BOPCO would prefer to reduce casing size from 7-5/8" to 7". BOPCO would like to run 7" 29ppf, HCP-110, LTC (special drift 6.125") liner in the 8-1/2" open hole. The cement blend would remain the same. The volume changes are listed below.

Based on the nearest offset well, the Nash Draw 19 Federal SWD, BOPCO is anticipating maximum mud weight through this interval to be 10.5 ppg.

Casing design factors:

Collapse: 1.16

Burst: 3.80

Tension: 2.08

Accepted for record
