	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	Venting and/or Flaring
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, LP respectfully submits this sundry for intent to intermittently flare on the referenced lease for 90-days. Flaring is necessary due to line capacity.

(This sundry is submitted for flaring done Jan-Mar all volumes reported through ONRR. Sundry for Subsequent Report to be filed with total volume)

Hello Jerry.

Per your phone call earlier this week, I am forwarding estimated volumes to be flared on the following:

Agreement Number/Well Name/API/Volume

891000303E / Poker Lake Unit 078 / 30-015-27539 / 15 MCF per day  
891000558F / James Ranch Unit 033 / 30-015-31207 / 125 MCF per day  
891000303H / PLU Pierce Canyon 17 Fed 001H / 30-015-36635 / 5 MCF per day  
891000303J / PLU Pierce Canyon 28 Fed 001H / 30-015-36830 / 10 MCF per day  
891000303K / PLU Big Sinks 26 Fed 001H / 30-015-37031 / 5 MCF per day  
891000303L / PLU Phantom Banks 1 Fed 001H / 30-015-37030 / 30 MCF per day  
891000303M / PLU Ross Ranch 19 Fed 001H / 30-015-37800 / 5 MCF per day  
NMLC061616A / Poker Lake Unit 042 / 30-015-21095 / 5 MCF per day  
NMLC061705B / Poker Lake Unit 068 / 30-015-25781 / 5 MCF per day

The wells only flare intermittently if pipeline as at full capacity therefor, I used an "averaged" daily volume based on a 90-day cycle. Some agreement numbers will not have any flaring for months at a time.

When the subsequent sundry is filed, it will have the actual flared volume.

If you need any additional information or wish to discuss this, please give me a call. Please add these volumes to my sundries and revise as you consider necessary.

Thank you....Tracie Cherry

*Tracie J Cherry*
