13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

OXY USA WTP LP respectfully request to change the access road on the above mentioned well. The new route will come off the Chris Robin 20 Federal #11's NE corner head north for 40' the turn and head west for 420' and will enter the Artesia Yeso Federal Unit #29 in the southeast corner. The move is due to the risk of the 12-14' fill that would be required to build the road where originally planned. Please see the attached plat for your review.
