NATURE OF RELEASE

Type of Release	Oil and produced water	Volume of Release	1bbl of oil 510bbls of produced water	Volume Recovered	1bbl of oil 459bbls of produced water
Source of Release	Oil tank	Date and Hour of Occurrence	10-27-2013	Date and Hour of Discovery	10-27-2013 12:30pm
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Mike Bratcher - NMOCD		
By Whom?	Michelle Mullins	Date and Hour	10-28-2013 07:42am		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Water leg plugged upon the gun barrel, causing all the water from the gun barrel to go to the 210bbl oil tank. No alarm on oil tank. Clean out the plugged pipe and monitor.

Describe Area Affected and Cleanup Action Taken.*

Initially 1bbl of oil and 510bbls of produced water were released due to the water leg on the gun barrel was plugged. We were able to recover 1bbls of oil and 459bbls produced water with vacuum trucks. The majority of the spill was contained in the lined facility. A 50X75 area adjacent to the location. All free fluid has been recovered. BBC will sample the spill site area to delineate any possible contamination from the release and we will present a work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
