Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Mack Energy proposes to change the COA on the Plug back sundry approved March 11, 2014. The COA was to set a CIBP @ 5275' w/25sx plug. This is a temporary plug while we await approval of our DHC for this well. We are asking for approval to set the CIBP @ 5275' w/35' cap, which follows guidelines set by the NMOCD for plugging. This CIBP and cap will be drilled out once DHC of the Grayburg and San Andres formation is approved.
