If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

An unknown person opened the truck load line valve and emptied the entire contents of the produced water tank. The valve was shut and locked at the tank.

Describe Area Affected and Cleanup Action Taken.\*

The release impacted approximately 10,603 sq.ft. of the tank battery pad. A backhoe was used to scrape up the heavily saturated soil the day of discovery. The soil was transported to Lea Lands. The remainder of the remediation will be done in accordance with the NMOCD and BLM remediation guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
