If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

An unknown vehicle ran over the flow line "swing" where the line turns west to head to the tank battery. The well was shut in and the broken fitting was replaced.

Describe Area Affected and Cleanup Action Taken.*

The spill impacted approximately 1,740 sq.ft. of pasture alongside the road way in the flow line right of way and approximately 700 sq.ft. of lease road. The saturated soil was scraped up with a backhoe and shovels and stockpiled on-site. The spill area will be cleaned up in accordance to the NMOCD and BLM remediation guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
