13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

SM is requesting approval to measure and sell gas production from the referenced well off lease. The measurement and sale of production from this well will be executed at the existing DCP Sales Meter (Station 718775-00) located at the NW, SW of Sec 35, T19S, R29E and the new Agave Sales Meter to be located at the NW, SW of Sec 36, T19S, R29E. The necessary off lease measurement is due to not having an available pipeline near well/lease. The Agave sales meter will be used to take Osage 34 Fed 5H gas when DCP line is not able due to DCP's lack of gathering capacity. Tie in to Agave's meter is expected to help eliminate/reduce flaring.

Off lease measurement is for gas only. All oil and water will remain on lease until sold. See attached map and site security diagram.
