13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The above location was due to be reclaimed by 02/24/2014. Fair Oil has plans to drill additional wells in the immediate 80 acres. The original plan was to use the Fair 17 Federal #1 location for the tank battery site for the additional wells Fair will drill in the W2 /NW of Sec 17-T17S, R31E. Fair still plans to utilize the location for both the tank battery site and support trailer location for the additional wells Fair will drill in the W2/NW of Sec 17, by doing so Fair can reduce the size of future locations. Fair has two active permits in Section 17, with plans to drill the first well within the next 45 to 60 days with the second well to follow by 60 days.

Fair requests a delay in any reclamation required for the Fair 17 Federal #1 location
