NATURE OF RELEASE

<p>Type of Release: Crude oil</p>		<p>Volume of Release: 7 bbls.</p>		<p>Volume Recovered: None</p>	
<p>Source of Release: Tank Battery Flare</p>		<p>Date and Hour of Occurrence: 9/3/14 time unknown</p>		<p>Date and Hour of Discovery: 9/3/14 at approximately 9:40 a.m.</p>	
<p>Was Immediate Notice Given?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required</p>		<p>If YES, To Whom?</p>			
<p>By Whom?</p>		<p>Date and Hour</p>			
<p>Was a Watercourse Reached?</p> <p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>		<p>If YES, Volume Impacting the Watercourse.</p>			
<p>If a Watercourse was Impacted, Describe Fully.*</p>					
<p>Describe Cause of Problem and Remedial Action Taken.*</p> <p>The float inside the free water knock out failed to shut of the fluid level causing oil to pressure up and go out the flare line. The float system was repaired.</p>					
<p>Describe Area Affected and Cleanup Action Taken.*</p> <p>The release impacted approximately 19,600 sq.ft of tank battery and well pad area with heavy to moderate oil saturation. The release also misted an area of approximately 49,200 sq.ft. in the pasture north west of the tank battery location. The area was reviewed by EH&S on 9/11/14; there had been a significant rain event, there was very little oil residue remaining on the vegetation. The saturated soil on the pad had been scraped up and stockpiled on-site. The final remediation will comply with the NMOCD and BLM remediation guidelines.</p>					
<p>I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.</p>
