13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In order to increase injection into water flood. CNR has requested permission from OCD to inject off lease water. This request has been granted (Case File 15036). CNR will now be moving forward with preparations to bring off lease water from Hudson. Anticipated blend range of off lease/lease water is 71% off lease and 29% lease water. Total lease injection volumes are not expected to be more than 300 BWPD.
