Describe Cause of Problem and Remedial Action Taken.*

On December 3, 2014 at 10:30am Lease Operator was transferring oil with the recirculation pump at the Sand 7 Fed 1 when he discovered the hammer union leaking releasing 7bbls of oil in pasture. When Lease Operator discovered the leak he immediately shut down the recirculation pump and notified the Assistant Production Foreman.

Describe Area Affected and Cleanup Action Taken.*

The area affected is approximately 2'x10' in the pasture area North of the Sand 7 Fed 1. Franco's Trucking was contacted and were able to recover 2bbls of oil from the spill by vac truck.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
