NATURE OF RELEASE

Type of Release:	Crude Oil	Volume of Release	30 bbls of Crude oil	Volume Recovered	25 bbls
Source of Release:	2 7/8" flow line	Date and Hour of Occurrence	8/22/11, Hour Unknown	Date and Hour of Discovery	8/22/11 8:54 a.m.
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?	Tony Savoie	Date and Hour: 8/22/11 1:00 p.m.			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken: A flow line from the PLU-205 pumping well developed a leak at the PLU-158 Battery, a repair clamp was installed on the line.

Describe Area Affected and Cleanup Action Taken.* Approximately 300 sq. ft. of pasture land on the north side of the battery pad, all of the free oil was picked up with a vacuum truck. A remediation plan will be developed in accordance with the NMOCD and BLM remediation guidelines.

Remediation activities conducted at the Poker Lake Unit Well #205 at the PLU #158 Battery met the objectives set forth during the September 6, 2012, meeting between BOPCO and NMOCD Representatives. Soil samples collected from the floor and sidewalls of the excavation were analyzed by an NMOCD-approved laboratory. On September 7, 2012, an NMOCD-approved polyurethane liner was installed in the floor of the excavation. Between September 7 and September 11, 2012, approximately 240 cy of impacted soil was excavated and transported to an NMOCD-approved disposal facility. Prior to backfilling, the final dimensions of the excavation were approximately 25' in width, 45' in length and 2' in depth.

Please reference the attached Basin Environmental Services Technologies Remediation Summary and Risk-Based Site Closure Request for details of remediation activities.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases, which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
