CASING TEST AND CEMENT JOB ☐
OTHER: **Status Update** ☒

12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

When this well was originally potentialed, it was making 1133 which required this well be connected to a high pressure line (500#). Currently this well is only capable of making estimated 40 mcf. It is not in the best of the well to produce this marginal well while hooked up to a high pressure line. We are presently talking to a gatherer about the possibility of laying a low pressure line (50#).
