NATURE OF RELEASE										
Type of Release Produced water					Volume of Release 375 bbls			Volume Recovered 10 bbls		
Source of Release Produced water tank overflowed					Date and Hour of Occurrence			Date and Hour of Discovery		
Was Immediate Notice Given?					4/25/13 time unknown 4/25/13 5:00 p.m. If YES, To Whom? 1					
X Yes No Not Required					NMOCD Emergency #104					
By Whom? Tony Savoie Was a Watercourse Reached?					Date and Hour 4/26/13 at 8:00 a.m. If YES, Volume Impacting the Watercourse.					
Yes X No										
If a Watercourse was Impacted, Describe Fully.*										
Describe Cause of Problem and Remedial Action Taken:* The strainer on the suction to the SWD plugged up, causing the pump to discharge at a rate that was not sufficient to keep up with the incoming water. The alarm system failed to report high tank levels and high discharge pressure. The strainer was removed and cleaned.										
Describe Area Affected and Cleanup Action Taken.* The area was being remediated as a result of previous spills associated with the SWD pump failure. The area impacted was on top of several prior spills that stayed primarily around the SWD tanks and the caliche tank battery pad area. Following initial response activities, the release was remediated as per NMOCD recommended guidelines. Please reference the attached <i>Remediation Summary & Risk-Based Site Closure Request</i> for remediation details. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases, which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
