Additional Comments:
 Pending BLM approval Devon request permission to build 2 trenches at the Filaree 24 #3, Sec 24-22S-25E (API 30-015-33618) to haul the drill cuttings from the Cuesta Abajo 26 Federal #1 (closed system). When drilling is complete we will trench bury the pit for the Filaree 24 #3 and the Cuesta Abajo 26-1 as Per NMOCD Pit and Below-Grade Tank Guidelines. We will line the trench with 12 mil liner and bury pit contents and liner then cover with 20 mil plastic. We will cap with 3' of surrounding material, contour the pit area to prevent erosion and ponding of rainwater over the site.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines , a general permit , or an (attached) alternative OCD-approved plan .
