Describe Cause of Problem and Remedial Action Taken.*

At some time during the drilling period of this well, a produced water spill must have occurred and was found by the environmental company hired by Devon for remediation on another Completions spill of 15% acid that occurred on 9/10/2014. (Another C141 was submitted for the acid spill).

Describe Area Affected and Cleanup Action Taken.*

The drilling PW spill is estimated at 75' x 175' just north of the wellheads.
A plan will be submitted to take care of the produced water spill (as well as the 9/10/2014 acid spill).

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
