13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

This well was fractured in the Grayburg/San Andres formations on 5/20/11. On 5/21/11 the Grayburg/San Andres production from the Puckett North #11 Well, API #30-015-37913, located in Section 12, T17S - R31E, 490' FNL and 1900' FWL, Unit C, Eddy County, dropped off dramatically, indicating we had communicated with, or "hit", the wellbore during the frac treatment. Over the next several days, the production from the "hit" well returned to normal, indicating the reservoir had equalized.

Spud Date: 1/4/11

Rig Release Date: 1/13/11
