If a Watercourse was Impacted, Describe Fully.* N/A		
Describe Cause of Problem and Remedial Action Taken.* A bolt broke on the suction screen pot of the jet pump. Isolated the leak and replaced the bolt.		
Describe Area Affected and Cleanup Action Taken.* Fluid was standing around the Jet pump skid and around production tanks. Some fluid did run off of location. Vacuum truck was dispatched to recover free standing fluid, approximately 60 Bbls recovered. Offsite affected soil will be dug and hauled.		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
