13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Chevron U.S.A. Inc. requests a 6 month extension to the current TA status of the above referenced well.

We were on track to perform a recompleat up to the Wolfcamp but that will no longer happen on time due to our research showing inadequate cement across the proposed new perforated interval. We will need additional time to investigate our alternatives for executing a successful frac job that will stay in zone or potential new completion methods.
