SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to deepen or reentry to a different reservoir.
Use "APPLICATION FOR PERMIT--" for such proposals

SUBMIT IN TRIPLICATE

1. Type of Well ☐ Oil Well ☒ Gas Well ☐ Other

2. Name of Operator

Harvey E. Yates Company

3. Address and Telephone No.

P.O. Box 1933, Roswell, NM 88202

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)

Unit B, 990' FNL & 2005' FEL

Sec 14, T26S, R12E

5. Lease Designation and Serial No.

NM-71526

6. If Indian, Allottee or Tribe Name

7. If Unit or CA, Agreement Designation

8. Well Name and No.

Bennett Ranch Unit #1-Y

9. API Well No.

30-035-20028

10. Field and Pool, or Exploratory Area

Wildcat Mississippian

11. County or Parish, State

Otero County, NM

12. CHECK APPROPRIATE BOX (s) TO INDICATE NATURE OF NOTICE, REPORT, OR OTHER DATA

TYPE OF SUBMISSION

- ☒ Notice of Intent
☐ Subsequent Report
☐ Final Abandonment Notice

TYPE OF ACTION

- ☐ Abandonment
☐ Recompletion
☐ Plugging Back
☐ Casing Repair
☐ Altering Casing
☒ Other Auth. To flare gas
☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If wells directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We would like to request a thirty (30) day authorization to flare gas on this well for testing.

We propose to flare this well at a rate of 1.5 mmcf per day, monitoring pressures before & after the test and performing a pressure build up test. This information will allow us to make a decision as to how we will further develop the Bennett Ranch Unit.

Roswell, NM 88202

Dear Mr. Carpenter:

Enclosed are signed copies of your approved Sundry Notices for flaring of Bennett Ranch Unit #1-Y and 25-1 wells in Otero County. Prior to moving on to the sites for flaring, you will need to spray wash all equipment and vehicles to ensure invasive weed seed is not introduced to the well site locations or access roads. Our District Biologists will coordinate or conduct the required aplomado falcon surveys. Final approval to commence will depend upon those survey results. The conditions of approval to the Sundry Notice are enclosed and are part of this approval.

Your contacts in Las Cruces for the flaring proposal are John Besse at (505) 525-4363 or Joe Torrez at (505) 525-4374.

Sincerely,

Tim L. Sanders
Assistant District Manager
Division of Multi-Resources

CONDITIONS OF APPROVAL FOR TWO FLARING SUNDRY NOTICES

1. Within 15 days after production testing is completed, a copy of test results along with the total amount of gas flared will be submitted to the Bureau of Land Management (BLM) Las Cruces District Office. This report will also be furnished to the Mineral Management Service pursuant to NTL-4A. NTL-4A allows flaring for 30 days or a production limit of 50 mmcf of gas, whichever occurs first. Flaring greater than 30 days or 50 mmcf requires approval in the form of a Sundry Notice. Royalty will be due on any amount of the gas flared that exceeds this threshold.
2. Two weeks prior to flaring, HEYCO will contact the BLM Las Cruces District Office to coordinate the biological survey for aplomado falcons as required by the U. S. Fish and Wildlife Service Biological Report.
3. HEYCO will also contact all affected neighbors and landowners and inform them of all activities that will take place, what to expect and what precautions will be taken to ensure the health and safety of all.
4. HEYCO will ensure protection of the Butterfield Trail and cultural resources as specified in the Resource Management Plan Amendment.
