13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

NPC requests to downhole commingle the Logan Draw; Morrow with the Undesignated; Atoka.

Pool:	Perfs:	Oil Rate:	Oil %:	Gas Rate:	Gas %:	Wtr Rate:	Wtr %:
Undesignated; Atoka	8930-8942	0	0	5	14	0	0
Logan Draw; Morrow	9331-9370	0	0	30	86	0	0

The commingling will not reduce the value of the total remaining production. Each pool was tested and an established rate and pressure were documented before DHC with other pools. The production split will be determined from the testing based on the relative proportions.

Ownership in both pools is identical for the specified well.
