13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We propose to reclaim the pad site as illustrated on the attached diagram and described below:

1. The caliche pad will be removed and used to repair existing lease roads.
2. Subsoil will be pushed from fill side into cut side and contoured to prevent erosion and ponding.
3. Seedbed will be prepared and affected area will be seeded with native vegetation using BLM seed mixture No. 2, for sandy sites per the COAs.
4. Berm entire reclaimed area with 1.5 ft. berm using existing material.
5. Site will be monitored until successful reclamation is achieved.
