13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This sundry is in regards to the United States Department of the Interior Bureau of Land Management's Notice of Incidents of Noncompliance? number OMB160621. This sundry is to request variance from On Shore Order #1 XII and delay Interim Reclamation. The oil and gas processing facility built on the Cedar Canyon 23 #002 location is currently utilizing all of the outer perimeter and space on the location. For this reason the Interim Reclamation cannot be completed at this time. This location resides on private surface and the surface area that is being utilized by this location is covered within Oxy's Surface Use Agreement between the land owner and Oxy. When the facility is downsized in the future the Interim Reclamation will be completed at that time.

NM OIL CONSERVATION
ARTESIA DISTRICT

JUL 29 2016

RECEIVED

Future inspections will re-evaluate need for Interim Reclamation.

14. I hereby certify that the foregoing is true and correct.
