Good Morning Karen,

The only thing I found in our files was an email saying there was a fish in the hole so that is why the BHL was not where we APD'd the well, I did not find a sundry and the drilling person that was in charge of that well is no longer with Yates. Please let me know if you needed anything else. Thank you ma'am and have a great weekend!

**Subject:** FW: DSU for Glow Worm ALX Federal #19H

Tina:  
Could you provide me with the sundry approving the change of the bottom hole location for this well? It is still posted as it was originally designated with the APD. There is a plat on file showing the bottom hole location in Unit Letter G, but does not outline a new spacing unit, so I am guessing it was 'overlooked' when submitted (2012) and not updated in our system. I will be glad to do that when I receive the change. Thanks very much!

Karen,

I hope everything is going great for you.

Regarding the captioned well, can you confirm whether the DSU that is identified on the website is accurate? The SHL is in UL-O and the BHL appears to be in UL-G. However, the DSU is shown as including UL-B. Please let me know if clarification is needed.

Link: <https://wwwapps.emnrd.state.nm.us/ocd/ocdpermitting/Data/WellDetails.aspx?api=30-015-37515>

I appreciate your help. Have a nice weekend.

Regards,

Kyle V. Morris
