NM OIL CONSERVATION

ARTESIA DISTRICT

NOV 21 2016

If a Watercourse was Impacted, Describe Fully.

Describe Cause of Problem and Remedial Action Taken.  
A 2" threaded fitting corroded and failed.

RECEIVED

Describe Area Affected and Cleanup Action Taken.

The affected area was pasture area and was approximately 2' wide by 25' long. We will delineate and submit a work plan to remediate.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
