13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

In response to Notice of Orders of the BLM Authorized Officer dated February 6, 2013 and subsequently received February 8, 2013, Snow Oil & Gas Inc proposes that work needed to fulfill said Notice to commence thirty (30) days after approval by BLM. Snow will remove thin salt layer and plastic found at surface and dispose of; re-cap pit with sufficient amount of dirt to equal 3'-4' cap; Contour and till perpendicular against hill in pit area to minimize and control erosion; Seed pit area with recommended seed mixture after completion and final approval by BLM.

All equipment currently on location is used in daily operation. The current pad size is needed to conduct current and future operations and based on OSHA guidelines, pad is the correct and necessary size.
