13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

As part of plugging and abandoning the Lone Star Federal Com #1 (30-015-20178), V-F Petroleum Inc. is planning on removing the buried gas line which starts in at the above mentioned well, traveling west for 1,600 feet on the north side of lease road to a hook-up point on the Agave Gas Line in SE4SE4 of 8-19S-27E. After removal, V-F Petroleum Inc. will then abandon the right of way granted in 2008 (Contract No. 8-LM-4L-11990).
