testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection. Oxy is providing an updated facility diagram for approved commingle of the Peaches 19 CTB for the following wells: Peaches 19 1H, Peaches 19 2H, Peaches 19 3H and Peaches 19 4H. Allocation will be performed via well test. Oil will be measured via the test separator oil meter (S/N 11278673828). Gas will be measured via the test separator gas meter (S/N T142986305). Gas leaving the facility will be measured through Oxy check meter (S/N 535622). Oil leaving the facility will be measured through a LACT unit (S/N 3318133).

Condition of Approval

Commingling of lease production and Off lease Storage, Measurement, & Sales of production. Approval to use LACT Coriolis Meter for oil sales

- 1. This approval is subject to like approval by the New Mexico Oil Conservation Division.
- 2. This agency shall be notified of any spill or discharge as required by NTL-3A.
- 3. This agency reserves the right to modify or rescind approval whenever it determines continued use of the approved method may adversely affect the surface or subsurface environments.
- 4. This approval does not constitute right-of-way approval for any off-lease activities. Within 30 days, an application for right-of-way approval must be submitted to the Realty Section if not already done.
- 5. Approval for combining production from various sources is a privilege which is granted to lessees for the purpose of aiding conservation and extending the economic life of leases. Applicants should be cognizant that failure to operate in accordance with the provisions outlined in the Authorized Officer's conditions of approval and/or subsequent stipulations or modifications will subject such approval to revocation.
- 6. Gas measurement for allocation must be measured as per Onshore Order #5 and API requirements for sales meters.
- 7. All gas and oil subject to royalty shall be measured as per federal regulations and shall be reported to ONRR as required. All gas which is vented, flared or used on lease shall be reported as per NTL-4A to ONRR. All gas which is vented or flared shall be subject to royalty, unless prior approval was given by the authorized officer.
- 8. This agency shall be notified of any change in sales method or location of sales point.
- 9. Additional wells and/or leases require additional commingling approvals.
- 10. Notify this office 24 Hrs. prior to any meter proving to allow time for an inspector to witness.
- 11. The Coriolis meter shall be designed, installed and operated in accordance with all applicable API standards, including API 5.6, as may be amended or revised from time to time.
- 12. The metering facility shall include a temperature probe to monitor the actual oil temperature during custody transfer. This information will be recorded and used in calculating the volume of oil metered during each transaction.
- 13. The meter shall have a non-resettable totalizer.

- 14. The custody transfer meter shall be proven monthly in conformance with Onshore Oil and Gas Order No. 4.III.D. The meter proving is to be witnessed by BLM, contact 575-361-2822; a minimum of 24 hours prior to meter proving. Meter proving records shall be maintained for a period of six years from the date of generation and will be made available for audit upon request.
- 15. A copy of the monthly meter proving will be submitted to the appropriate BLM office within 30 days of proving.
- 16. The run ticket associated with each oil transfer shall include the measured or calculated BS&W, oil gravity, temperature recorded during the transfer and beginning & ending totalizer readings. Such records shall be maintained for a period of six years from the date of generation and will be made available for audit upon request.
- 17. Upon request a copy of run tickets shall be submitted to the appropriate BLM office and will be made available for audit.
- 18. Operator to maintain tank gauging data to be used as a comparison with the LACT meter readings.
- 19. All other provisions of the Onshore Oil and Gas Orders, especially No. 3 and No. 4 shall be met.
- 20. This approval may be subject to future review and if determined inadequate with regards to accurate measurement, the approval will be withdrawn.
