13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

MOC would like to make changes to the site facility diagram. MOC will not have a battery on this location. The battery will be at the Tamano 11 NC Fed Com #1H. The Interim reclamation area will change due to MOC not requiring the extra area on the location for a tank battery. MOC will need to install a 2 7/8" steel flow line from the Tamano 11 MD Fed Com #1H to the Tamano 11 NC Fed Com #1H. Please see attached diagrams for both the flow line route and interim reclamation area. Please call Bradley Bishop with any questions.
