	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The Wadi Petroleum, Inc. Exxon Federal #2 (API 30-015-24023) was shut in on May 11, 2017 as a result of a 300 psi increase in the operating pressure of the Enterprise sales line. The well is incapable of producing into this line at the elevated pressure.

Enterprise advises that the system pressure has increased due to an increase in volume handled by the pipeline as a result of successful workovers in existing wells. Enterprise said that they expected the operating pressure to drop over time as the initial flush production from these wells subsided.

Wadi requests authority to extend the shut-in period until which time the pressure on the Enterprise line is such that the well can produce into it.

**NM OIL CONSERVATION**
