Was a Watercourse Reached?	If YES, Volume Impacting the Watercourse.	
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	N/A	

If a Watercourse was Impacted, Describe Fully.\*  
N/A

Describe Cause of Problem and Remedial Action Taken.\*  
This was a Trespassing incident that occurred on a Devon Energy leasehold. Multiple tanks were placed at the request of a pipeline installation company performing work for a pipeline company this work is not related to any Devon operations in this area. Devon did not order the tanks nor were we contacted and asked permission to have the tanks placed on our location. Devon was only made aware of the fire that occurred because we were contacted by the fire department who extinguished the fire which occurred on the tanks which were set by the 3<sup>rd</sup> party contractor.

Describe Area Affected and Cleanup Action Taken.\*  
After reviewing this incident with OCD, Devon is submitting this in cooperation with OCD to allow a path for this incident to be closed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
