13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Bass Enterprises Production Co. respectfully requests Temporarily Abandon status for one year, while we evaluate the wellbore for other production potential or for possible use as a salt water disposal well. New technologies are continually being developed that may allow us to return the well to production. It is for these reasons that TA status is requested. As always, Bass will strive to be a prudent operator by performing annual MIT test so as to ensure the mechanical integrity of the wellbore.
