13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

BOPCO, L.P. respectfully requests to build a water pond for drilling, completion, and workover operations. This disturbance is intended for a recycling pond and facility to recycle produced water for use in oil and gas operations associated with development. Recycling Facility/Containment permit has been submitted to NMOCD and will be provided to BLM upon approval by the state.

This location had an onsite performed 3-21-2017 with Fernando Banos in attendance. Onsite Notes: PLU North Pond ? The original location was moved to the East to avoid excessive cut into a hill side on the NW corner of the proposed disturbance. The agreed upon disturbance is 1140' x 800', NE of the PLU 155 well site. The access road will be run from the PLU 155 pad to the SW corner of the disturbance.
