RECEIVED

APR 03 2006

UUU-ARTESIA

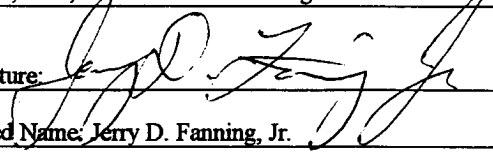

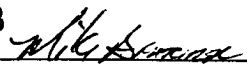

Describe Cause of Problem and Remedial Action Taken.*

Gas line broke because of unexpected pressure increase. Line was isolated and valve repaired.

Describe Area Affected and Cleanup Action Taken.*

Release flowed southeast approximately 250 feet across pasture impacting approximately 2500 sq. ft.
Site will be evaluated, delineated and a work plan for remediation submitted per OCD instruction in letter dated 3-13-06.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Operator,

The New Mexico Oil Conservation Division District 2 Office (OCD) is in receipt of a work plan proposal for remediation of a release of produced fluids that occurred at the above referenced well site. The date of release is, at this time, unknown to the OCD. The submitted form C-141 is dated 3/30/2006 and the work plan proposal is dated 4/17/2006.

The work plan is approved as submitted with the following general stipulations:

- Notify the OCD prior to commencement of remediation activities as outlined in the work plan.
- Notify the OCD 24 hours prior to obtaining samples where analysis of samples obtained are to be presented to the OCD.
- Commence remediation activities prior to May 20, 2006.
- Submit a Final Report C-141 upon satisfactory completion of project.

Please be advised that NMOCD acceptance and/or approval of documents or work plans does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health, or the environment. In addition, NMOCD acceptance and/or approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If I can be of assistance, please contact me.

Sincerely,

Mike Bratcher
