13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

- Devon Energy contracted Cardinal Laboratories to gather soil samples at the above location for the purpose of testing the PH level on contaminated area after an acid spill on this location. (Report attached)
- The impacted soil from the spill was excavated to a depth of 1-foot.
- A mix of soda ash and water was sprayed to the excavated area.
- 1 foot of clean topsoil was backfilled into the excavation and contoured to match the surrounding terrain.
- The area was seeded using the recommended BLM seed mix.
