13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

12/23/2017 MIRU calfrac, 12/26/17 start frac stages 1-31 with 3 shots per foot for a total of 930 shots 0.36 in size in the wolfcamp formation using 100 mesh and 20/50 sand. Stimulated with 15% HCl acid. 1/6/18 - opened well to flowback. First oil on 1-9-18. Turned over to production.

Emailed completion report due to errors when trying to send from WIS.
