13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Please make the following change to Point 7: Anticipated Reservoir Conditions on the 8 point Drilling Program that was filed recently.

Normal pressures are anticipated throughout Delaware Section. The Bone Spring expected BHP is 5902 psi or equivalent mud weight of 10.4 ppg at TD. Due to the tight nature of the reservoir rock (high pressure, low volume) the well will be drilled under balanced utilizing a rotating head. The expected BHT at TD is 170 degrees F. Prior to penetrating the abnormal pressures in the Bone Spring, mud monitoring equipment will be installed and operative. No H2S is anticipated, therefore, no contingency plan will be filed.

14. I hereby certify that the foregoing is true and correct.	
Electronic Submission #23308 verified by the BLM Well Information System For BASS ENTERPRISES PRODUCTION CO, sent to the Carlsbad Committed to AFMSS for processing by Linda Askwig on 06/24/2003 (03LA0612SE)	
Name (Printed/Typed) TAMI WILBER	Title AUTHORIZED REPRESENTATIVE
Signature (Electronic Submission)	Date 06/17/2003
