If this is a pit closure: (1) Attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite box if your are burying in place) onsite offsite for including remediation start date and end date. (4) Groundwater encountered: No Yes for it yes, show depth below ground surface for it and attach sample results.		
Additional Comments: Premier Oil & Gas plans to close the workover pit as per OCD Rule 50 Guidelines.		
Premier plans to remove all fluids & liner; then cover with existing soil. We will contour		
pit area to prevent erosion and ponding of rainwater. We will notify the OCD 48 hours prior		
to beginning work. The pit is located 20' west of the well.		
I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines , a general permit , or an (attached) alternative OCD-approved plan .
