If this is a pit closure: (1) Attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite box if		
your are burying in place) onsite Toffsite If offsite, name of facility (3) Attach a general description of remedial action taken including		
		
remediation start date and end date. (4) Groundwater encountered: No 🔀 Yes 🔲 If yes, show depth below ground surfaceft. and attach sample results.		
(5) Attach soil sample results and a diagram of sample locations and excavations.		
Additional Comments: Premier Oil & Gas plans to close the pit as per OCD Rule 50 Guidelines.		
Premier plans to remove all fluids & liner; then cover with existing soil. We will contour		
pit area to prevent erosion and ponding of rainwater. We will notify the OCD 48 hours prior		
to beginning work. The pit is located 20' North of the well.		
I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank		
has been/will be constructed or closed according to NMOCD guidelines [Max] a general permit [], or an (attached) alternative OCD-approved plan [].

Your certification and NMOCD approval of this application/closure does not relieve the operator of liability should the contents of the pit or tank contaminate ground water or otherwise endanger public health or the environment. Nor does it relieve the operator of its responsibility for compliance with any other federal, state, or local laws and/or regulations.
