13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

## APPLICATION FOR LEASE GAS COMMINGLE AND OFF LEASE MEASUREMENT.

State of New Mexico – Santa Fe  
 Oil Conservation Division  
 1220 S. St Francis Drive  
 Santa Fe, New Mexico 87505

### Application proposal for ETZ & Federal leases:

Zimmerman Oil and Gas Expl Inc. is requesting approval for Lease Commingle and Off Lease Measurement of gas from the following wells and pools.

Zimmerman purchased the ETZ and Federal leases from Pete Mills in November of 2010. At the time of purchase the gas had already been commingled. During a January 2010 shut in, DCP decommissioned a section of gas pipeline and forced Zimmerman to tie in at their new tie in point approximately .3 miles south. The previous meter location was close to the ETZ battery. The reason for this application is that it was discovered recently the previous operator did not have authority to commingle.

### Federal Lease NMLC-029431A

Well Name	Location	API #	Pool 33745	BOPD	OG	MCFPD	BTU
Federal 26 1	18-T16S-R31E	30-015-10447	Square Lake	N/A	N/A	20	1401.30
Federal 26 2	18-T16S-R31E	30-015-04851	Square Lake	N/A	N/A	10	1315.99
Federal 26 3	18-T16S-R31E	30-015-21479	Square Lake	N/A	N/A	25	1389.16

### ETZ Lease NMLC-063932

Well Name	Location	API #	Pool 33745	BOPD	OG	MCFPD	BTU
ETZ 1	13-T16S-R30E	30-015-03890	Square Lake	N/A	N/A	15	1382.19
ETZ 3	13-T16S-R30E	30-015-03892	Square Lake	N/A	N/A	10	1385.72

\*All gas is commingled.

### Gas metering for the ETZ and Federal Wells:

Gas volumes from each well are determined by shutting one well in and calculating the reduction in production per 24 hour period at the sales meter. Production is allocated on a monthly basis based on the most recent individual well test of oil, gas, and water.

The well being tested is shut in for a period of time, 24 – 48 hours. The reduction in gas through the DCP sales meter is then calculated to a 24 hour day basis, mcf/d. This is assigned as allocation to the shut in well. Gas from the combined wells route to the DCP CDP gas sales meter #726179, where total gas for the facilities is metered and custody transfer is made.

There is a central tank battery for the Federal wells located approximately midway between the Federal #1 and the Federal #2 wells. The ETZ central tank battery is located just south west of the ETZ #1 well. A compressor is located just south of the gas commingle point, close to the ETZ#1.

The BLM's interest in these wells, are the same and the BTU's are equivalent. Waste is not induced and no correlative rights are impaired. Each wells allocation will be calibrated regularly. The BLM and OCD will be notified of any future changes in the facilities.

### Process and Flow Descriptions:

Attached is a map that displays the ETZ and Federal leases and well locations in Section 18-T16S-R31E & 13-T16S-R30E. The working interest, royalty interest and overriding royalty interest owners are identical. Also is a diagram for the ETZ and Federal production facilities. The flow of produced fluids is shown in detail. The benefit of surface commingling is that all the wells are within Sec 18, T16S, R31E, and Sec 13, T16S, R31E.

Zimmerman Oil and Gas Expl. Inc. understands the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument.

## Economic Justification Work Sheet ETZ and Federal Tank Batteries

Commingling proposal for leases: NMLC063932 and NMLC029431A:

ETZ Lease	NMLC063932	Royalty Rate 80%					
Well Name	BOPD	Oil Gravity @60 deg	Value/bbl	MCFPD	Dry BTU	Value/mcf	
ETZ #1	N/A	N/A	N/A	15	1230	\$2.08	
ETZ #3	N/A	N/A	N/A	10	1230	\$2.08	

Federal Lease	NMLC029431A	Royalty Rate 80%					
Well Name	BOPD	Oil Gravity @60 deg	Value/bbl	MCFPD	Dry BTU	Value/mcf	
Federal 26 #1	N/A	N/A	N/A	20	1296	\$2.08	
Federal 26 #2	N/A	N/A	N/A	10	1296	\$2.08	
Federal 26 #3	N/A	N/A	N/A	25	1296	\$2.08	

### Economic combined production

ETZ Lease	NMLC063932	Royalty Rate 80%					
Federal Lease	NMLC029431A	Royalty Rate 80%					
Facility Name	BOPD	Oil Gravity @60 deg	Value/bbl	MCFPD	Dry BTU	Value/mcf	
ETZ & Federal Tank Batteries	N/A	N/A	N/A	80	1253.5	\$2.08	

\*Values based on July 2018 gas sales statement.

### Economics:

80 MCFD \* 2.08 \$/MCF \* .8 Value Obtained \* .8 Royalty Interest \* 30 Days/Month =  
\$3194.88 per Month

### Expenses include:

Electricity - \$80/month

Chemicals - \$60/month

Pumping - \$180/month

Total - \$320/month

**ETZ and Federal 26 Wells (see list below)  
Zimmerman Oil & Gas Exploration Inc.**

November 28, 2018

**Condition of Approval  
Lease Commingling & Off lease sales of production**

1. This approval is subject to like approval by the New Mexico Oil Conservation Division.
2. This agency shall be notified of any spill or discharge as required by NTL-3A.
3. This agency reserves the right to modify or rescind approval whenever it determines continued use of the approved method may adversely affect the surface or subsurface environments.
4. This approval does not constitute right-of-way approval for any off-lease activities. Within 30 days, an application for right-of-way approval must be submitted to the Realty Section if not already done.
5. Approval for combining production from various sources is a privilege which is granted to lessees for the purpose of aiding conservation and extending the economic life of leases. Applicants should be cognizant that failure to operate in accordance with the provisions outlined in the Authorized Officer's conditions of approval and/or subsequent stipulations or modifications will subject such approval to revocation.
6. Gas measurement for allocation must be measured as per Onshore Order #5 or 43 CFR 3175 and API requirements for sales meters, or as approved in this approval to commingle production.
7. Oil measurement for allocation must be measured as per Onshore Order #4 or 43 CFR 3174 and API requirements for oil measurement, or as approved in this approval to commingle production.
8. All gas and oil subject to royalty shall be measured as per federal regulations and shall be reported to ONRR as required. All gas which is vented, flared or used on lease shall be reported as per 43 CFR 3179 to ONRR. All gas which is vented or flared shall be subject to royalty, unless prior approval was given by the authorized officer. These volumes are royalty bearing and shall be reported on OGOR "B" as disposition code "33" for royalty-bearing flared gas and disposition code 63 for royalty-bearing vented gas.  
**DC 33 = Flared gas – royalty due**  
**DC 63 = Vented gas – royalty due**
9. This agency shall be notified of any change in sales method or location of sales point.
10. Additional wells and/or leases/CAs require additional commingling approvals.
11. Notify this office 24 Hrs. prior to any meter proving to allow time for an inspector to witness.
12. Submit meter numbers upon installation of meters and also provide updated facility diagram with meters numbers.
13. Coriolis meters (CMS) will be proven, as per API, BLM, and NMOCD specifications, when installed, once per month for the first 3 months (to establish a consistent repeatability factor), and then CMS meter proving frequency requirement will be as per applicable BLM regulations, notwithstanding further guidance from the local BLM authorized officer. The factor obtained will be used to allocate the production volumes.

14. This approval does not authorize any by passes around any allocation meter or metering separator, this is to include the use of headers to divert production other production equipment other than the approve measurement points.
