13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

GC 12-3-18
Accepted for record - NMOCD

The surface will be reclaimed as described below:

- Fill hole with cement; when dry, cut off conductor to 3 feet below surface and set dry hole marker.
- Remove caliche from pad and use to repair existing lease roads.
- Spread top soil stockpile over location and contour to match surrounding dunal topography.
- Berm dirt at pavement to block access.
- In the Spring, prepare seedbed and seed with native vegetation using BLM seed mixture #3.
- Monitor site until successful reclamation is achieved.
