13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

UXY USA Inc respectfully requests to amend the approved APD due to spacing changes. This well will be drilled in the Bone Spring formation instead of the Wolfcamp formation and the bottom hole location is moving 410' east.

Due to the changes mentioned above the following changes to the drill plan are expected:

Target change  
MD/TVD change  
ICP 5.5"X4.5" crossover change  
Cementing program  
Pressure control equipment from 10M BOP to 5M BOP  
Mud program Logging program

- All previous COAs still apply.
