13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

We need to install a temporary road in order to have another access point into our Sterling Silver 33-4 3H well pad. This temporary road will run approximately 50 feet from the NW corner of the pad site to an existing road running east to west as seen on the attached image. This temporary road will be 30 feet in width, approximately 50 feet in length, located in Section 28, T23S-R31E, Eddy County, New Mexico. This road will be reclaimed once it is no longer needed.

This temporary road does not cross any lease lines.
