13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Matador Production Company proposes to use a spudder rig to drill the surface hole for its General Kehoe 02-24S-28E RB 217H (API No. 30-015-45557), and to set surface casing and cement as provided in its existing drilling permit. After surface casing and cement are properly placed, each well will be sufficiently capped and installed with a proper wellhead. A rig capable of reaching total depth will move in and rig up to complete the drilling and casing of this well within 90 days of its spud date.

Spud Date:
