	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	PD

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Lime Rock Resources II-A, L.P. requests to change the surface hole from 11" to 12.25".

Lime Rock Resources II-A, L.P. has also been in contact with Jim Amos of the BLM with respect to potential concerns when building the pad. Performing a cut of 3:1 on the northeast corner of the pad may cause the adjacent Navajo buried pipeline to move. Therefore, the agreed upon change of plans is to leave the cut as a sheer wall and fence it off with T-posts and wire fencing. At the time of reclamation the fence will be removed and the cut will be filled back in.
